

Buying a check valve from MGA Controls

MGA Controls are leading suppliers of components for the process and water industries. We have a wide range of stock, including **fast closing NRV's**, suitable for use in a wide range of water industries. There are multiple benefits of choosing us as your **check valve suppliers**, so we've outlined the main reasons below.

Where to buy a check valve

1. Leading manufacturers

At MGA Controls we supply **fast closing check valves** from leading manufacturers, Val-Matic. MGA Controls also work exclusively in the UK with Singer Valve, a Canadian manufacturer of automatic control valves for a wide range of industrial applications.

Val-Matic is a market leader in the design and manufacture of valves in water/wastewater, commercial, industrial and municipal applications. MGA Controls are the exclusive distributors of Val-Matic in the UK and Ireland, carrying a large stock-holding of check valves.

For over 57 years, Singer Valve has been meeting the high standards of the global water industry, in the manufacture of automatic control valves. As official UK distributors, our technical team are fully trained in their portfolio of products.

2. WRAS approved materials

Our range of fast closing NRV's are manufactured from WRAS approved materials, which have satisfied the requirements of the Water Supply (Water Fittings) Regulations 1999, Water Supply (Water Fittings) (Scotland) Byelaws 2014 and the Water Supply (Water Fittings) Regulations (Northern Ireland) 2009. WRAS material approval will also be granted to materials that satisfy the requirements of BS 6920:2000 for hot water usage.

3. Wide range of applications

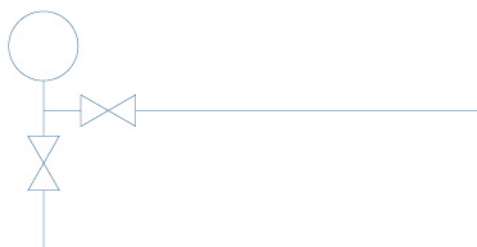

Offering a wide range of standard swing check valves, fast closing check valves, specialist anti-slam and silent check valves, our components can be used in a wide range of applications. Whether you require controlled operation or a valve for vigorous application, we have the solution to meet your application requirements.

4. Wide range of check valve types

As leading check valve suppliers, MGA Controls offer a wide range of check valve types, in order to suit specialist application requirements. Our stock includes ball, dual disc, resilient hinge and silent check valves, as well as check valves specific to clean and waste water applications.

5. Fast delivery

At MGA Controls, we pride ourselves on offering a fast and efficient service. With next day delivery available, you can be sure that you will receive your fast closing NRV as soon as possible, minimising machinery downtime.
