

**MODEL****EW**

## HEAVY DUTY KNIFE GATE VALVE

The EW model knife gate is an uni-directional lug type valve designed according to AWWA C520-14 for sewage service applications. The design of the body and seat also assures non-clogging shut off on suspended solids in industries such as:

- Pulp and Paper
- Power plants
- Chemical plants
- Food and Beverage
- Etc.

**Sizes:** DN 50mm/2" to DN 900mm/36" (larger diameters on request)

**Working pressure:**

DN 50mm/ 2" to DN 600mm/24"      10 bar / 150 psi  
 DN 700mm/28" to DN 900mm/36"      7 bar / 100 psi

**Standard flange connection:**

DIN PN 10 and ANSI B16.5 / ASME B16.47  
 Other flange connections available on request

All valves are tested prior to shipping in accordance with the standard developed by the Quality Control Department at ORBINOX.

### STANDARD PARTS LIST

Part:	Ductile Iron:
1- Body	GJS 400 (GGG40)
2- Gate	AISI 304
3- Seat	Metal/Metal or EPDM
4- Packing	PTFE Impreg. Synth. Fibre with an EPDM O-Ring
5- Gland Follower	GJS 400 (GGG40)
6- Stem	AISI 430
7- Stem nut	Brass
8- Yoke	Epoxy-coated Carbon Steel
9- Seat Retainer Ring	AISI 304
10-Axial fixing bush	AISI 304 (1.4301)
11- Friction washer	PET + solid lubricant
12- Guide bush	Bronze
13- Spring pin	AISI 420 (1.4021) (ISO 8752)
14- Handwheel	DN≤310mm/12.20": Aluminium (AlSi12); DN≥410mm/16.70": GJS400

## DESIGN FEATURES

### BODY:

Lug type monoblock ductile iron body with reinforced ribs in larger diameters for extra body strength. Internal cast gate wedges and guides allows for tighter shutoff. Port design follows the AWWA C520-14 standard

The internal design of the valve avoids any build up of solids that would prevent the valve from closing.

### GATE:

Standard AISI 304 stainless steel gate. The gates are polished and lapped to attain a greater seal between the gate and both the packing and the seat. The bottom of the gate edge is also machined to a bevel, so that it cuts through the solids for a tighter seal in the closed position.

### SEAT: (resilient)

Unique design that mechanically locks the seal in the internal of the valve body with a stainless steel retainer ring. Standard EPDM also available in different materials such as Viton, PTFE, etc.

### PACKING:

Long-life packing with several layers of PTFE impregnated fibre plus and EPDM o-ring, with an easy access packing gland ensuring a tight seal. Long-life braided packing is available in a wide range of materials.

### STEM:

The standard stainless steel stem offers a long corrosion resistant life. Non rising stem configuration as standard, for rising stem a stem protector is provided for additional protection against dust while the valve in the open position.

### ACTUATORS:

All actuators supplied by ORBINOX are interchangeable, and supplied with an standard mounting kit for installation purposes on site.

### YOKE or ACTUATOR SUPPORT:

Made of EPOXY coated steel (stainless steel available on request). Compact design makes it extremely robust even under the most severe conditions.

### EPOXY COATING:

The epoxy coating on all ORBINOX cast iron and carbon steel valve bodies and components is electrostatically applied making the valves to be corrosion resistant with a high quality finished surface. The ORBINOX standard colour is RAL-5015 blue.

### GATE SAFETY PROTECTION:

ORBINOX automated valves are provided with gate guards in accordance with EU Safety Standards. The design feature prevents any objects from being caught accidentally while the gate is moving.

## OTHER OPTIONS

### Bonnet (Fig.1):

Assures tight sealing to atmosphere. Reduces packing maintenance. Two types of packing are available: packing type with layers of PTFE impregnated fibre (Fig.1-A) and also o-ring type solution (Fig.1-B)

Fig.1 - A

Fig.1 - B

### V-port:

60 degree and pentagonal port design. Selection depends on the desired fluid control type.

### Flush ports (Fig.2):

Allow for cleaning of solids trapped within the body cavities that can obstruct the flow or prevent the valve from closing. Depending on the process, purging can be done with air, steam, liquids, etc.

### Other materials of construction:

Availability of other stainless steels such as AISI 316, Duplex (2205) and Superduplex (2507), 254SMO, Etc.

### Fabricated valves:

ORBINOX designs, produces and delivers special fabricated valves for special process conditions (big sizes and/or high pressures).

Fig.2

## SURFACE TREATMENTS

Valve components can be protected or coated for a longer life expectancy, depending on the application of the valves and the valve service conditions.

At ORBINOX we can offer alternative treatments and coatings for the different valve components to improve their properties against abrasion (Stellite, polyurethane...), against corrosion (Halar, Rilsan, galvanizing...) and against adherence (polishing, PTFE...).

## ACTUATOR TYPES

### MANUAL:

- Handwheel (rising stem)
- Handwheel (non-rising stem)
- Chainwheel
- Lever
- Bevel Gear
- Other (square nut)

### AUTOMATIC:

- Electric (rising & non-rising stem)
- Pneumatic (single & double-acting)
- Hydraulic

All actuators supplied by ORBINOX are interchangeable

## FAIL SAFE SYSTEMS

Used on pneumatic actuated valves

### SINGLE ACTING (SPRING RETURN)

- Available from  
DN 50mm/2" to DN 300mm/12"
- Supply pressure:  
min. 5 bar / 75 psi- max. 10 bar / 150 psi
- Options:
  - Pneumatic or electric fail open
  - Pneumatic or electric fail close
  - Other options on request

### DOUBLE ACTING WITH AIR TANK

- Available for all valve sizes
- Supply pressure:  
min. 3.5 bar / 50 psi  
max. 10 bar/ 150 psi
- Options:
  - Pneumatic or electric fail open
  - Pneumatic or electric fail close
  - Other options on request

## ACCESSORIES

- Mechanical stops
- Locking device
- Manual override
- Solenoid valves
- Positioners
- Limit switches
- Proximity switches
- Floor stands
- Stem extensions

Wide range of valve extensions available

*For further information about fail safe systems and valve extensions, please see EX catalogue.*

We recommend to contact our technical department

## TEMPERATURE CHART

### SEAT / SEALS

Material	Max.T (°C)	Applications
Metal/Metal	>250	High temp. / Low tightness
EPDM (E)	120	Acids and non mineral oils
Nitrile (N)	120	Resistance to petroleum products
Viton (V)	200	Chemical service /High temp.
Silicone (S)	250	Food service / High temp.
PTFE (T)	250	Corrosion resistance

### PACKING

Material	Max.T (°C)	pH
Dry cotton (AS)	50	6-8
PTFE impregn. synth. fibre (ST)	240	2-13
Braided PTFE (TH)	260	0-14
Graphited (GR)	600	0-14
Ceramic fibre (FC)	1200	--

NOTE: all types include an elastomere O-ring (same material as seal), excluding TH, GR and FC.

More details and other materials upon request

## SEAT TYPES

### METAL / METAL

For applications with:

- High temperature
- High density media application
- When full tightness is not required

### RESILIENT, TYPE "A"

- Standard resilient seat.
- Temperature limitations according to seat material selected. Review the above chart or contact our technical department for more information.
- Replaceable seat retainer ring.

### RESILIENT, TYPE "B"

- Temperature limitations according to the selected seat material. Review the above chart or contact our Technical Department for more information.
- Replaceable and reinforced seat ring available in different materials such as: AISI 316 (1.4401), CA15, Ni Hard, etc.

### DEFLECTION CONE "C"

- Deflects the media away from any valve internal exposed parts (gate, seat,...)
- Material: AISI 316 (1.4401), CA15, Ni-Hard, etc.
- Face-to-face dimension increases:  
DN 50mm/2" to DN 250mm/10" X = 9mm/0.35"  
DN 300mm/12" to DN 600mm/24" X = 12mm/0.47"  
Larger diameters on request

**HAND OPERATED (non rising stem)**

HANDWHEEL

GEAR

- Standard manual actuator
- Consists of:
  - Handwheel
    - DN 50-300: Aluminium
    - DN ≥ 350: GJS400 (GGG40)
  - Yoke
  - Stem
  - Yoke bushing
  - Stem nut fixed to the gate
- Available from DN 50mm/2" to DN 600mm/24"  
(larger sizes available upon request)
- Options (on request):
  - Rising stem
  - Chainwheel
  - Locking Device
  - Extensions

- Recommended for valves larger than DN 600mm/24"
- Consists of:
  - Stem
  - Yoke
  - Bevel Gear Actuator with Handwheel  
(Standard Ratio 4:1)
- Available from DN 200mm/8" to DN 900mm/36"
- Options:
  - Rising Stem
  - Chainwheel
  - Locking Device
  - Extensions

**HANDWHEEL**

**GEAR**

- Consists of:
  - Handwheel: Epoxy coated Cast Iron
  - Yoke
  - Stem
  - Yoke bushing
  - Stem nut fixed to the gate
- Available from DN 50mm/2" to DN 600mm/24" (larger sizes available upon request)
- Options (on request):
  - Non Rising Stem
  - Chainwheel
  - Locking Device
  - Extensions

- Recommended for valves larger than DN 600mm/24"
- Consists of:
  - Stem
  - Yoke
  - Bevel Gear Actuator with Handwheel (Standard Ratio 4:1)
- Available from DN 200mm/8" to DN 900mm/36"
- Options:
  - Non Rising Stem
  - Chainwheel
  - Locking Device
  - Extensions

**PNEUMATIC CYLINDER**

- The standard pneumatic actuator (double acting on-off cylinder) consists of:
  - DN ≤ 250mm/10": Aluminum barrels
  - DN ≥ 300mm/12": Composite barrels
  - Aluminum end covers
  - Stainless Steel (AISI 304) piston rod
  - Nitrile coated steel piston
- Available from DN 50mm/2" to DN 900mm/36"
- Supply Pressure: min. 3.5 bar / 50 psi - max. 10 bar / 145 psi. Actuator designed with 6 bar / 85 psi air supply.
- For valves installed in a horizontal position, we recommend U-type support plates and/or actuator support.
- Options:
  - Hard anodized barrel and covers
  - Stainless Steel barrel and covers
  - Over/Undersized cylinder
  - Manual override
  - Fail safe systems
  - Limit switches
- Instrumentation (on request):
  - Positioners
  - Solenoid valves
  - Flow regulators
  - Air preparation units

\* For sizes DN 300mm/12" and above, actuator diameter may need to be oversized depending on the actual working pressure.

**ELECTRIC ACTUATOR (rising stem)**

- Consists of:
  - Electric actuator
  - Rising stem
  - Motor support yoke flange acc. to ISO 5210 / DIN 3338
- The standard electric motor is equipped with:
  - Manual emergency operation
  - Limit switches (open/closed)
  - Torque switches
- Available from DN 50mm /2" to DN 900mm/36"
- Wide range of types and marks available to meet customer's needs.
- Option:
  - Non rising stem
