## 'UB' SERIES BALL VALVE

## **Ball Valves 10,000 PSI**

Alco are aware of the ever increasing operating pressures demanded by industry, and for this reason have developed the 'UB' range of valves to accommodate these stringent requirements. The UB series high pressure valve has a working pressure of 10,000psi with a body test at 15,000psi. The UB series is a tried and tested rugged design for high pressure applications. It comes with panel mounting holes and stainless steel handle as standard. Service / repair kits are available to prolong service / field life. Many options available such as locking device.

## **DESIGN FEATURES**

2 piece design for safety.	<ul> <li>Temperature range -40°C to 230°C as standard (other temperatures available on request)</li> </ul>
<ul> <li>Quick 90° operation, lever handle standard.</li> </ul>	<ul> <li>Renewable seats and seals for long life.</li> </ul>
<ul> <li>Bi-directional floating ball design to ensure leak- proof shut-off on pressure and vacuum.</li> </ul>	Available full bore or standard bore.
Anti-blowout stem for safety.	Full material traceability.
<ul> <li>Available with 4-panel mounting holes M4 x 6 deep, can be actuated (if specified).</li> </ul>	<ul> <li>Materials of construction can be supplied to meet the requirements of NACE MR 0175.</li> </ul>
